Subject: Bill 1090

Hello,

As a Danbury resident, I am totally against a new bill that would allow more casinos in the state. Casinos have proven to bring an area down by hurting local businesses as people end up spending money at the casinos instead of supporting other businesses. The mayor of Ledyard says it has not helped his town. The latest Quinnipiac poll overwhelmingly shows that CT residents do not want more casinos. Please vote NO on this bill. Thank you for your time.

Best regards,

Paul Thury
